The subject of this story was yet a young man and wealthy when misfortune overtook him and failure was inevitable. Some of his property was real estate, some of it was not, the latter consisting of securities easily converted into currency. awakened by the most discordant sounds, as if a troop of fiends were shouting, whooping, and laughing around him in one wild chorus; this is the morning song of the laughing tackass, warning his feathered mates that daybreak is at hand. At noon the same wild laugh is heard, and as the sun sinks into the west it again rings through the forest, I shall never forget the first night I slept in the open bush in Australia. It was in the Black forest. I awoke about daybreak, after a confused sleep, and for some minutes I could not remember where I was, such were the extraordinary sounds that greeted my ears; the fiendish like notes of the mag-pie, the hourse cackle of the wattle birds, the jargon of flocks of leatherheads, and the screaming of thousands of parrots as they dashed through the forest, all joining in the chorus, formed one of the most extraordinary concerts I have ever heard, and seemed at the moment to have got up for the purpose of welcoming the stranger to this land of wonders on that eventful morning. I have heard it hundreds of times since. but never with the same feeling that I listened to it then.

"The laughing jackass is the bushman's clock, and being by no means shy, of a companionable nature, a constant attendant about the bush tent and a destroyer of snakes, is regarded, like the robin at home, as a sacred bird in the Australian forests."

Furnished by Topeka Grain and Stock Egchange, 326 Kansas Avenue. Wheat-It was a dull and dragging market today from beginning to the end of the session. Cables were weak and lower and weather conditions fine which caused severe liquidation to the December option. The Cincinnati Price Correct issued today says of the crops: "Favorable week for the wheat crop, moisture promoting growth and improving general position, some renewal of seeding. Cutvested crop recognized as approximately 260 million bushels winter wheat and 215 million bushels spring wheat.' Another bearish feature of today market was a report from New York that the spring wheat flour combination had gone to pieces and prices were 15 cents lower and weaker. There were some good bull features, however, and the shipments were very good at over half a million bushels wheat and flour, and northwestern re-

ceipts are only moderate.

May 4.72 4.75 4.70 4.70 Corn and outs are dull and slightly lower, near months being especially weak, selling off 14 to 35c with but little recovery. Receivers were selling freely and the crowd in the pit were all on top of the market. Corn cables were steady however, and cash demand good.

Provisions 40,000 hogs at the yards and all grades easier. Products in the pit slightly lower, 5 to 71/2c all around, and packers not inclined to do much.
